National Agricultural  
Statistics Service

### ACKNOWLEDGMENT

This report is made possible through a cooperative effort of the Florida Agricultural Statistics Service, USDA, and the Florida Department of Agriculture and Consumer Services.

Many agricultural producers, associated allied industries, and government agencies associated with the livestock industry voluntarily supplied basic data used to develop these statistics. Their contributions are sincerely appreciated.

## FLORIDA CASH RECEIPTS SUMMARY

Florida's Livestock Industry had gross receipts of 1.191 billion dollars during 1994. This represented a decrease of 20 million dollars from 1993.

Milk sales remains the largest contributor to gross receipts. Milk sales increased by 23 million dollars and was the only major component of the Livestock Industry to show an increase from 1993. Cattle receipts decreased by 27

million dollars. Chicken and Egg receipts decreased by seven million dollars, hog receipts decreased by three million dollars and honey receipts decreased by two million dollars during 1994. The "Other" category, which includes horses, goats, sheep, aquaculture products and other categories not listed separately, decreased by 3 million dollars during 1994.

## DAIRY SUMMARY

Florida dairies produced 2.623 billion pounds of milk in 1994. This was 65 million pounds more than the production of 2.558 billion pounds during 1993 and 44 million pounds greater than the production of 2.579 billion pounds during 1992.

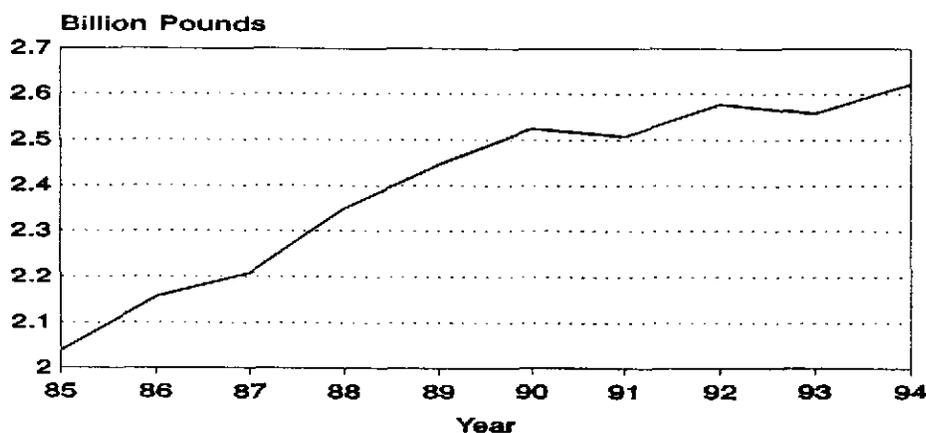

An average of 176,000 milk cows were on Florida farms and commercial dairies in 1994. This was a decrease of 2,000 from 1993. Compared to other States, Florida ranked 12th in average number of milk cows and 13th in total milk production.

Cash receipts from marketings of Florida milk in 1994 totaled 408 million dollars, 22 million more than 1993.

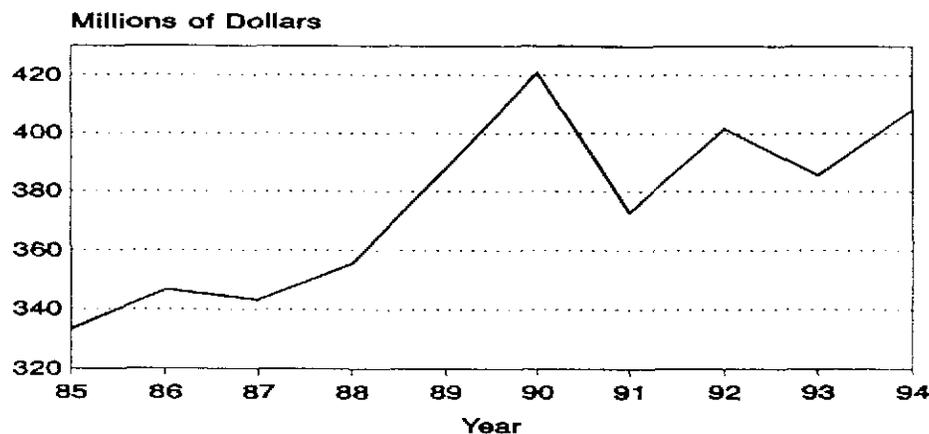

Total United States milk production was 153.6 billion pounds in 1994, compared to 150.6 billion pounds in 1993. During 1994, the number of milk cows on U. S. farms and dairies averaged 9,525,000, a decline of 64,000 from 1993. Average annual milk production per cow was a record 16,128 pounds, 574 pounds higher than last year.

Nationwide, cash receipts from marketings of milk during 1994 totaled 19.9 billion dollars, an increase of 4 percent from 1993. Production returns averaged \$13.12 per cwt, 16 cents more than 1993's average of \$12.96.

### Florida Annual Milk Production 1985-1994

### Florida Milk Marketings 1985-1994

**1995 COUNTY SUMMARY**

Okeechobee County continues to have almost three times as many dairy cows as any other county in Florida. The three largest counties (Okeechobee, Lafayette and Gil-

christ), account for just over one-third of the dairy cows in Florida.

**FLORIDA MILK PRODUCTION: Inventory of commercial milk cows by counties**

1/ Partial balance sheet estimates by States: The sum of inventory, January 1, 1993, calf crop and inshipments is equal to the sum of marketings, farm slaughter, deaths, and inventory, January 1, 1994. Farm slaughter and deaths are not included in this table. 2/ Excludes interfarm sales within State, but includes custom slaughter for use on farms where produced.

1/ An operation is any place having one or more head of beef cows on hand at any time during the year. 2/ Included in operations with cattle. 3/ Combined with other size groups.

## POULTRY AND EGG SUMMARY

### VALUE

The total value of chicken and egg production in Florida in 1994 was \$290.9 million. Florida egg production was valued at \$98.3 million, down eight percent from the previous year. The average annual price for eggs (hatching and table eggs combined) was 46.5 cents per dozen, 5.3 cents less than in 1993.

The value of broilers produced in Florida during 1994 totaled \$191.2 million, an increase of two percent from 1993, and the highest since 1989. Prices of broilers in 1994 averaged 33.5 cents per pound, a decrease of 0.5 cent per pound from 1993.

The value of sales of other chickens (excluding broilers) was \$1.4 million, down 39 percent from a year earlier.

### INVENTORY

Broilers raised during 1994 totaled 132.7 million birds, up three percent from 1993. The average number of layers during 1994 was 9.7 million, up two percent

from the previous year. Pullets of laying age were 5.2 million, down from 5.6 million in 1993. Pullets not of laying age were 756,000.

### PRODUCTION

Florida broiler production in 1994 totaled 570.6 million pounds, up 3.4 percent from 1993, and a new record. The average weight per bird was 4.3 pounds, unchanged from a year earlier.

Egg production totaled 2,538 million eggs, up 2.5 percent from 1993. Eggs per layer averaged 260 during 1994, two eggs per birds better than the previous year and above the national average of 254 eggs per laying hen.

Commercial hatcheries produced 150.8 million straight run chicks in 1994, down 13 percent from 1993. Broiler-type chicks accounted for 92 percent, and egg-type chicks for the balance of the total eggs hatched.

## TERMS AND DEFINITIONS

**BROILERS** are meat-type chickens raised commercially and usually marketed around 7 weeks of age.

**EGGS** include both table and hatching eggs. Market egg prices are calculated on a farm basis, cases exchanged. They include all grades and sizes, but exclude charges for hauling, grading or packaging. Prices for hatching eggs are not published separately. Annual egg production, price, and value statistics are for table and hatching eggs combined.

**OTHER POULTRY** cash receipts include chickens other than broilers, turkeys, and miscellaneous farm poultry.

**CURRENT YEAR** data are preliminary and subject to revision.

**SURVEY METHODOLOGY**--Estimates for hens and pullets of laying age, pullets not yet of laying age, and of egg production are based upon data obtained from a sample of commercial chicken and egg producers. This sample is selected from the universe of Florida poultry management units and includes approximately 98 percent of the total commercial laying flock.

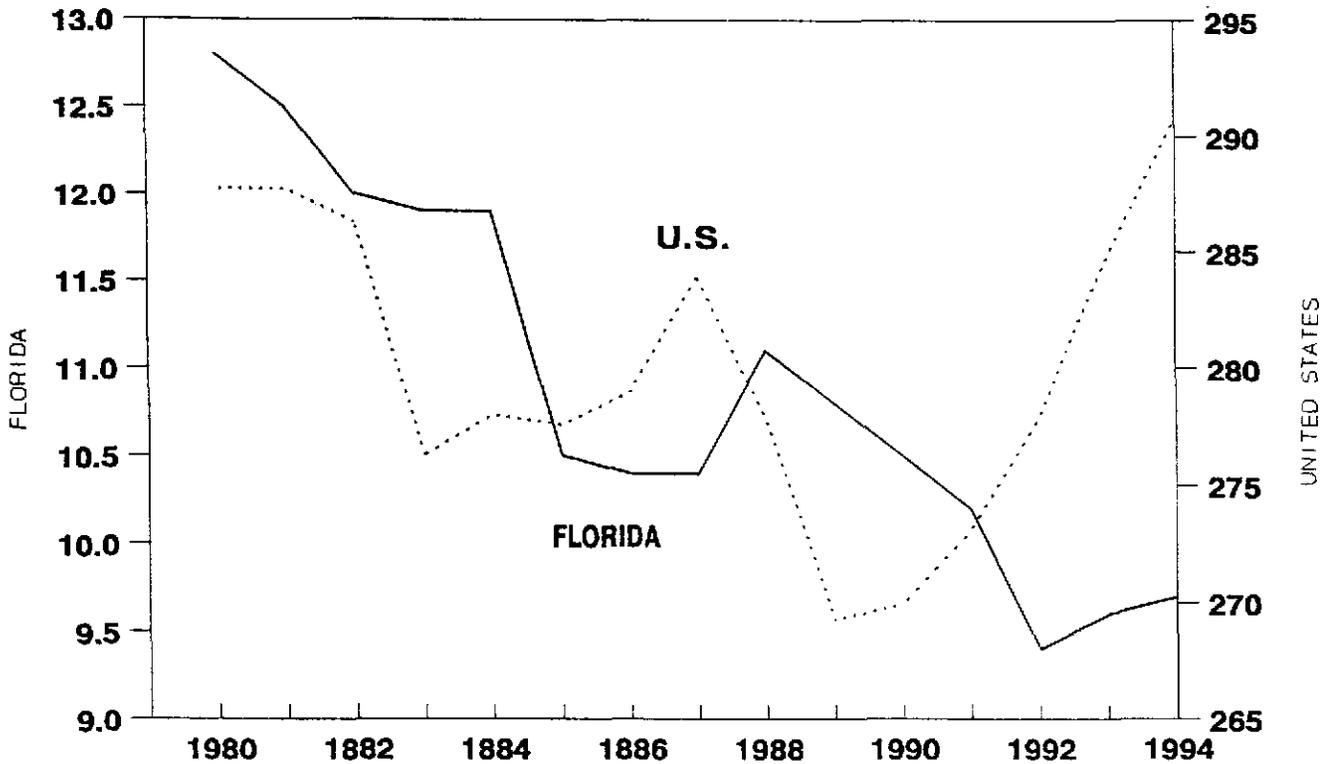

During December of each year all known commercial egg producers in Florida are contacted. This complete enumeration establishes the annual universe of management units. Management units include all independent producers as well as contractors who report for all contractees.

## HONEY

**FLORIDA:** Honey production for 1994, at 19,320,000 pounds, decreased 15 percent from the 1993 production of 22,600,000 pounds. Florida ranks fourth behind California, North Dakota, and South Dakota in honey production during the year. The number of colonies increased by 30,000 from 1993 and the yield of 84 pounds per colony, down 29 pounds from 1993.

Producers received an average of 46 cents per pound, 4 cents less than the 1993 average and the lowest price in nine years. Value of the 1994 crop dropped from \$11,300,000 the previous year, to \$8,887,000, a 21 percent decrease.

**UNITED STATES:** Honey production in 1994 from producers with five or more colonies totaled 217 million pounds, down 6 percent from 1993. There were 2.77 million colonies

producing honey in 1994, compared with 2.88 million in 1993. Yield per colony averaged 78.4 pounds, down 1.8 pounds from the 80.2 pounds in 1993. Colonies that produced in more than one State were counted in each State and yields may be understated. Producer honey stocks were 59.8 million pounds on December 15, 1994, up 22 percent from a year earlier.

Prices for the 1994 crop averaged 51.2 cents per pound, down 5 percent from the 1993 price of 53.9 cents per pound. Prices are based on retail sales by producers and sales to private processors and co-ops. At the U.S. level, prices for each color are derived by weighting State average prices by the State quantities sold. Government payments are excluded from the honey prices published in this report. Prices were lower for all color classes in 1994.

## CATFISH

### FLORIDA CATFISH

The total number of catfish operations in Florida on January 1, 1995 was 20 with a water surface area of 210 acres and total sales in 1994 of \$280,000. Of these 210 acres, 20 acres were used for broodfish.

### 15 SELECTED STATES

Catfish growers in the 15 selected States had sales of \$397 million during 1994. These sales were up 7 percent from the 1993 total of \$370 million. Sales of all foodsize fish totaled \$374 million, up 6 percent from last year's total of \$353 million. Sales of fingerlings and fry totaled \$17.6 million, compared with \$8.75 million in sales during 1993. Sales of stockers totaled \$5.32 million, down 28 percent from the \$7.42 million in sales during 1993. Sales of brood fish previously used for breeding totaled \$384 thousand, compared with \$779 thousand during 1993.

Direct sales to processors accounted for 96 percent of the total sales of food size fish. Sixty-seven percent of the stockers sales were to other producers.

The total number of operations on January 1, 1995, in the 15 selected States was 1,295, down 4 percent from the July 1, 1994, total of 1,355. The number of operations in the top 4 producing States (AL, AR, LA, and MS), however, increased 4 percent for July 1, 1994.

The water surface acres being used for catfish production totaled 155,415 acres, up 1 percent from the July 1, 1994, total. Of the total acres, 4,403 are to be renovated during the period of January 1, 1995, to June 30, 1995. An additional 3,010 acres are under construction or expected to be constructed and in use by July 1, 1995. During the period of July 1, 1994, through December 31, 1994, 2,895 acres were taken out of production. As of January 1, 1995, 5,930 acres were being used for broodfish production.

Catfish producers had 1.30 million broodfish on hand January 1, 1995, up 10 percent from the 1.18 million on hand January 1, 1994. All foodsize fish on hand totaled 202 million on January 1, 1995, up 7 percent from the 188 million fish on hand the previous year. Medium foodsize showed the largest increase of the three categories from January 1, 1994, rising 21 percent. Of the total number of foodsize fish, 4.54 million were large foodsize (over 3 pounds per fish), 59.2 million were medium foodsize (1 1/2 pounds to 3 pounds per fish), and 138 million were small foodsize fish (3/4 pound to 1 1/2 pounds per fish). Total number of stockers on hand January 1, 1995, at 554 million, were up 1 percent from the previous year's 548 million stockers. The 554 million stockers included 273 million large stockers (over 180 lbs. to 750 lbs./1,000 fish) and 281 million small stockers (over 60 lbs. to 180 lbs./1,000 fish). There were 725 million fingerlings on hand January 1, 1995, up 12 percent from the 649 million fingerlings on hand January 1, 1994.

**CATFISH:** Water surface acres; acres being renovated; new ponds under construction; acres out of production; and acres used for broodfish; January 1

1/ Water surface acres for Jul 1, 1994 are revised. 2/ Included in other States to avoid disclosure of individual operations. 3/ Includes CA, GA, IL, KS, KY, NC, OK, SC, TN, and TX.

## **CONFIDENTIALITY OF COLLECTED DATA**

All information collected from individual agricultural producers is held strictly confidential. Data provided by individual producers or other agricultural firms are used only to compile and publish statistics at the county, State, and national levels. Statistics at the county and State level are not published if they will potentially disclose information about an individual or operation. In addition, all names and addresses obtained by this office are held confidential.

## **RELEASE DISTRIBUTION POLICY**

Florida Agricultural Statistics Service (FASS) publications are provided free of charge to all Florida agricultural producers and other respondents to FASS surveys. Also entitled to free FASS publications are news media that use agricultural statistics in their publications, cooperating State agencies, and other USDA agencies that have an essential need for this information. Publications picked up at the FASS office will be provided at no charge.

Other persons or entities will be assessed a nominal charge to receive individual publications or to be placed on distribution list for future FASS publications.

Florida cattle and hog auctions, location and day of sale

Day sale held	Market locations	Name of market	Mailing address	Phone
